

ADHYAAYA 2020

Government College
Of Engineering,
Nagpur.

CODE-A-THON

#include < NIGHT >

Hey everyone!

Government College of Engineering Nagpur brings you **CODE-A-THON**, an event where you get to code and develop your ideas with your peers in the setting of the night. Yes, you guessed it right. An over night Hackathon.

Why Hackathon?

Hackathons are great, because participants may find something you never knew you were looking for. This may be using your software solutions to break into new markets or developing extensions that open up entire new customer bases. In addition, participants often not only develop a prototype of an app but frequently its infrastructure as well.

Perks:

The problem statements will be given by **PERSISTENT SYSTEMS Pvt Ltd**. It would act as fine exposure to industry level problems.

As project-based challenges, it's hackathons that come closest to testing a candidate's capabilities of handling challenges in the workplace.

With software developers and data scientists in high demand, it's challenging for students to gain exposure, garner interest and determine their specialty.

The idea that will be developed by you and your team will be judged by **PERSISTENT Systems** on the basis of industry standards.

The best idea that would impress our industry experts would win the competition.

ADHYAAYA 2020

Government College
Of Engineering,
Nagpur.

In-house refreshments:

Since it's an over night Hackathon, you would be spending most of your time using your skills for designing and thinking about ideal algorithms. Let us take care of your stomach.

Refreshments will be provided by us, so that you can completely focus on perfecting your solutions.

You should bring you own systems along with you and chargers as well, you wouldn't want your dear laptop to fall asleep in the middle of the event.

Reporting time:

The team shall report in the college's main building lobby at **7:00 pm sharp**. Further instructions will be given after your arrival.

FEES:

Team of 5 = 1200/-

Team of 4 = 1000/-

Team of 3 = 900/-
