

WORKFLOW

OVERVIEW –

A career in Photography blends both artistic and technical acumen, and like most other arts, needs practice and perseverance. Photographers produce and preserve images that paint a picture, tell a story, or record an event. With the rapid growth of communication networks, explosion of the advertising sector and media communications as well as fashion boom, digital photography has become the modern version of this art form.

Workflow is a workshop which aims at teaching you the basics of photography and videography. This will be a 2-day workshop where students will also be taught photo editing, video editing and implementing these skills in practical world.
